EDUCATION

University of Waterloo — BAsC, Computer Science (Expected May 2027)

GPA: 3.7 / 4.0

Relevant Coursework: Data Structures & Algorithms, Databases, Web Development, Operating Systems, Statistics

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, C++

Frameworks & Tools: React, Flask, Node.js, PostgreSQL, Git, Docker

Concepts: REST APIs, Agile/Scrum, Unit Testing

EXPERIENCE

Software Developer Intern — BrightLeaf Technologies, Toronto, ON (May 2025 – Aug 2025)

- Built and maintained REST API endpoints in Python/Flask serving 5,000+ daily requests
- Optimized PostgreSQL queries, cutting average response time by 30%
- Collaborated in a 5-person Agile team using Git and code reviews

Teaching Assistant — University of Waterloo, CS135 (Sep 2024 – Apr 2025)

- Led weekly tutorials for 40+ first-year students
- Graded assignments and held office hours

PROJECTS

StudyBuddy (React, Flask, PostgreSQL)

- A study-group matching web app used by 200+ students on campus
- Implemented user authentication, a matching algorithm, and a responsive UI

StockTracker (Python)

- CLI tool that pulls live market data via public APIs and charts portfolio performance

AWARDS & ACTIVITIES

- Dean's Honour List (2024)
- 2nd Place, UWaterloo Hack & Build Hackathon (2024)
- Member, UW Data Science Club

INTERESTS

Fintech, machine learning, web development, open-source contribution
